#### Index of Exhibitors Regensburg 2022

#### Exhibition Venue:

Campus University of Regensburg, Universitätsstraße 31, 93053 Regensburg

- Foyer Main Lecture Hall (A)
- Main Lecture Hall area H6 (H6)
- Law & Economy Building (È)
- Tent close to Physics Building (Tent Physics)

#### **Opening hours exhibition:**

- Tuesday, Sept 6 09:00 18:00 (optional until 14:30 due to the award ceremony)
- Wednesday, Sept 7 09:00 18:00
- Thursday, Sept 8 09:00 18:00

The entrance is free!

<u>Company</u>	Location	Booth No.
<b>ADDITIVE Soft- und Hardware für Technik und Wissenschaft GmbH</b> Max-Planck-Straße 22 b, 61381 Friedrichsdorf ADDITIVE Soft- und Hardware für Technik und Wissenschaft GmbH	Audimax Foyer	A47
<b>ADL Analoge &amp; Digitale Leistungselektronik GmbH</b> Bunsenstraße 30, 64293 Darmstadt Plasmastromversorgungen/Stromversorgungen für Ionenquellen	Audimax Foyer	A39
Agilent Technologies Sales & Services GmbH & Co. KG Hewlett-Packard-Straße 8, 76337 Waldbronn Agilent is a leader in life sciences, diagnostics and applied chemical markets. The company provides laboratories worldwide with instruments, services, consumables, applications and expertise.	Audimax Foyer	A20
AHF analysentechnik AG Kohlplattenweg 18, 72074 Tübingen AHF provides optical filters, LED/laser light sources, image splitters and quality monitoring tools for professional and challenging (fluorescence) microscopy. Customers benefit from long-term and interdisciplinary expertise.	Audimax Foyer	A43
<b>Allectra GmbH</b> Traubeneichenstraße 62-66, 16567 Schönfließ Vakuumkomoponenten, elektrische Durchführungen, Kabel	Tent Physics	P05
<b>Almax easyLab bvba</b> Wagenmakerijstraat 5, 8600 Diksmuide, BELGIUM High Pressure (0.50 - 400 GPA), Science Solutions, Quantum Diamond, Polishing Services, Diamond Anvil Cell, Piston Cylinder Cell, Optical Diamond Component, High Pressure Tools and Accessories	Audimax Foyer	A36
<b>Amplitude Laser Group</b> 11 avenue de Canteranne, 33600 Pessac, FRANCE Diodengepumpte Femtosekunden-Festkörperlaser (Yb, TiSa), diodengepumpte Ultrakurzpuls-Faserlaser und Femtosekunden-Faserlaser (Yb), hochenergetische Nanosekunden-Laser	H6	A52
AMT Andreas Mattil – Technischer Vertrieb Talstraße 33, 67737 Frankelbach UHV Manipulators, Magnetrons & Power Supply's, Vacuum Components, Right Angle & Leak Valves, Linear & Rotation. Transfer, Load Locks & Chamber, Custom Solution, Instruments & Electronics, Thickness Measurement, Gauges and Contro	Tent Physics ller	P01

<b>attocube systems AG</b> Eglfinger Weg 2, 85540 Haar Piezo-based nanopositioners, low temperature microscopes, dry and liquid	Audimax Foyer	A14+A15
cryostats		
<b>Bernhard Halle Nachfl. GmbH Optische Werkstätten</b> Hubertusstraße 10, 12163 Berlin Polarisationsoptik, Linsensysteme, Optische Komponenten	Economy Bldg.	E11
<b>Bluefors Oy Vojko Kunej</b> Arinatie 10, 003700 Helsinki, FINLAND We offer a variety of models of dilution refrigerator measurement systems which can be further equipped with a wide range of options, e.g., experimental wiring, optical access, and magnet integration	Audimax Foyer	A29
<b>Bruker Nano GmbH</b> Am Studio 2D, 12489 Berlin	Economy Bldg.	E02
Bruker provides industry-leading surface analysis instruments for nanoscale materials characterization and process monitoring, addressing R&D and QA/QC questions with speed, accuracy, and ease. More information: www.Bruker.com		
<b>CAEN ELS S.R.L.</b> AREA Science Park - SS14 km 163,5, 34149 Basovizza, Trieste, ITALY High Performance Power Supplies, ZERO FLUCS Precision Current Measurements Beamline Electronic Instrumentation, MicroTCA and FMC	Economy Bldg. s,	E05
CLASS 5 PHOTONICS GmbH Notkestraße 85, 22607 Hamburg Ultrafast High Intensity Laser Systems, HHG-Sources, XUV-, VIS-, N/MIR-Sources, OPCPA, MPC	Audimax Foyer	A02
<b>CreaPhys GmbH</b> Niedersedlitzer Straße 75 (Eingang A), 01257 Dresden Technology leader in purification & vacuum deposition of molecular organic & inorganic compounds for research & manufacturing of opto-electronic devices, perovskite solar cells & lithium-ion batteries	Audimax Foyer	A40
<b>CreaTec Fischer &amp; Co. GmbH</b> Industriestraße 9, 74391 Erligheim Manufacturer of customized LT-STM/AFM, MBE, RTA and molecular spray system including associated electronics with software solutions as well as a wide range of equipment for use in (ultra-high) vacuum.		E21
<b>Cryoandmore Budzylek GbR</b> Hermann-Cossmann-Straße 19, 41472 Neuss 4K Cryostats, Pulse Tube Cryocooler up to 2.7W@4.2K, GM Cryocooler up to 2W@4.2K Ultra Low Vibration Cryostats, Custom Cryostats	Audimax Foyer	A12
<b>Cryogenic</b> Unit 6, Acton Park Estate, The Vale, London, W3 7QE, UNITED KINGDOM Cryogen-free, superconducting, 20 tesla, magnets, measurement, beamline, neutron, scattering, 3He, magnetism, VSM, conductivity, electrical, transport, low-temperature, UHV, SQUID, resonance, NMR, EPR, dilution refrigerator	Audimax Foyer	A09
<b>CryoVac GmbH &amp; Co. KG</b> Langbaurghstraße 13, 53842 Troisdorf CRYOVAC designs and manufactures custom and standard cryogenic and vacu- um systems. We offer a wide range of cryogenic products and equipment ranging from benchtop laboratory research to large-scale astronomical applications.	Economy Bldg.	E10

<b>Delft Circuits BV</b> Lorentzweg 1, 2628CJ, Delft, NETHERLANDS Delft Circuits is the manufacturer of cryogenic microwave flex cables. Cri/oFlex	Audimax Foyer	A34
provides excellent microwave performance, low thermal load, flexibility, ease of installation, and reliability		
<b>Deutsche Forschungsgemeinschaft (DFG) –</b> <b>Physik, Mathematik, Geowissenschaften</b> 53170 Bonn	Audimax Foyer	A31
Information und Beratung zu den Förderprogrammen der DFG		
<b>Digital Surf</b> 16 rue Lavoisier, 25000 Besancon, FRANCE Digital Surf provides software solutions for analyzing data from a range of instruments including Scanning Probe Microscopes (SPM), Scanning Electron Microscopes (SEM), profilometers and spectroscopy.	Audimax Foyer	A23
<b>Dr. Eberl MBE-Komponenten GmbH</b> Josef-Beyerle-Straße 18/1, 71263 Weil der Stadt Effusionszellen, Elektronenstrahlverdampfer, Dotierquellen, kundenspezifische Verdampfer	Economy Bldg.	E06
<b>Edwards High Vacuum International Ltd.</b> Burgess Hill, West Sussex, RH15 9TW, UNITED KINGDOM Complete Vacuum Solutions: Edwards stellt seine Vakuumpumpen aus der nXDS Serie sowie Zubehör/Messgeräte (wie APG200) vor - z.B. für die Halbleiter- branche zur Überwachung von Foreline-/allgemeinen Drücken.	H6	A53
Focus GmbH Neukirchner Straße 2, 65510 Hünstetten-Kesselbach Instruments for surface science	Economy Bldg.	E01
<b>GVL Cryoengineering Dr. George V. Lecomte GmbH</b> Aachener Straße 89, 52223 Stolberg Mischkryostate, Magnete und Zubehör für Kryotechnik	Economy Bldg.	E13
<b>GWU-Lasertechnik Vertriebsgesellschaft mbH</b> Bonner Ring 9, 50374 Erftstadt Abstimmbare Lasersysteme & OPOs; Kristalle (Laser, nicht-lineare); Spektrometer Fiberlaser	Economy Bldg. ;	E04
Hamamatsu Photonics Deutschland GmbH Arzbergerstraße 10, 82211 Herrsching a. Ammersee Hamamatsu Photonics supplies award winning, high-quality detectors, which not only have contributed to achieve major scientific milestones but enable science every day. So, let us talk about your project.	Tent Physics	P06
<b>Heidelberg Instruments Mikrotechnik GmbH</b> Mittelgewannweg 27, 69123 Heidelberg Fotolithographie-Systeme und Nanofabrikationswerkzeuge zur Erstellung von Mikro- und Nanostrukturen.	Audimax Foyer	A06
<b>Hiden Analytical Europe GmbH</b> Kaiserswerther Straße 215, 40474 Düsseldorf <i>Mass Spectrometers</i>	Audimax Foyer	A38
HORIBA Jobin Yvon GmbH Neuhofstraße 9, 64625 Bensheim Your trusted partner for innovative spectroscopy	Tent Physics	P02

<b>Hositrad Deutschland</b> Lindnergasse 2, 93047 Regensburg CF, KF, ISO, UHV-Vakuumbauteile, Elektrische Durchführungen, Membranbalgen, Special Products	Audimax Foyer	A17
<b>Hübner Photonics</b> Heinrich-Hertz-Straße 2, 34123 Kassel Manufacturer of high performance lasers and thz systems	Tent Physics	P11
<b>HZDR Innovation GmbH</b> Bautzner Landstraße 400, 01328 Dresden <i>Tensormeter, Rotax</i>	Tent Physics	P08
<b>ICEoxford</b> Avenue 4, Station Lane, Witney, Oxon, OX28 4BN, UNITED KINGDOM Dry and Wet Cryogenic Systems, Dilution Refrigerators, Cryogenic Spares	H6	A49
Incienta Technologie GmbH Pommernstraße 22, 63110 Rodgau-Weiskirchen Closed cycle & flow cryostats, custom cryogenic systems & probe Stations, ferro- piezoelectric testers, analytical tools, thin film deposition: systems & components custom UHV components.		A28
<b>Institute of Physics Publishing</b> Temple Circus, Temple Way, Bristol, BS1 6BE, UNITED KINGDOM Publishers of journals, magazines, community websites	Audimax Foyer	A05
<b>Interdisciplinary Center for Analytics on the Nanoscale – ICAN</b> Carl-Benz-Straße 199, 47057 Duisburg Interdisciplinary Center for Analytics on the Nanoscale, XPS, AFM, SEM, TOF-SIMS TEM, Raman, Präparation, Auftragsanalysen, Beratung	Tent Physics S,	P09
<b>JCM Dr. Jürgen Christian Müller</b> Zeilweg 19, 60439 Frankfurt / Main Vakuumtechnik, Dünnschichttechnik, Tieftemperaturtechnik, supraleitende Magne	Audimax Foyer	A09
<b>Kashiyama Europe GmbH</b> Leopoldstraße 244, 80807 München <i>Vacuum solutions</i>	Audimax Foyer	A18
<b>kiutra GmbH</b> Flößergasse 2, 81369 München <i>Cryogen-free Crostat</i>	Audimax Foyer	A24
Kleindiek Nanotechnik GmbH Aspenhaustraße 25, 72770 Reutlingen Micromanipulators, nanopositioners, nanoprobing, in situ AFM, cryo TEM sample liftout, nanoassembly, manipulators for UHV, force measurement, etc. Give your microscope a hand! www.kleindiek.com	Audimax Foyer	A46
<b>LASER 2000 GmbH</b> Argelsrieder Feld 14, 82234 Weßling Laser & Strahlquellen, Optik & Optomechanik, Optische Messtechnik, Laserschutz LWL-/Netzwerktechnik	H6 ,	A55
<b>Leiden Probe Microscopy B.V.</b> J.H. Oortweg 19, 2333 CH Leiden, THE NETHERLANDS High Pressure STM, Fast SPM, SXRD, CVD, Graphene, Variable Temperature STM	Economy Bldg.	E18

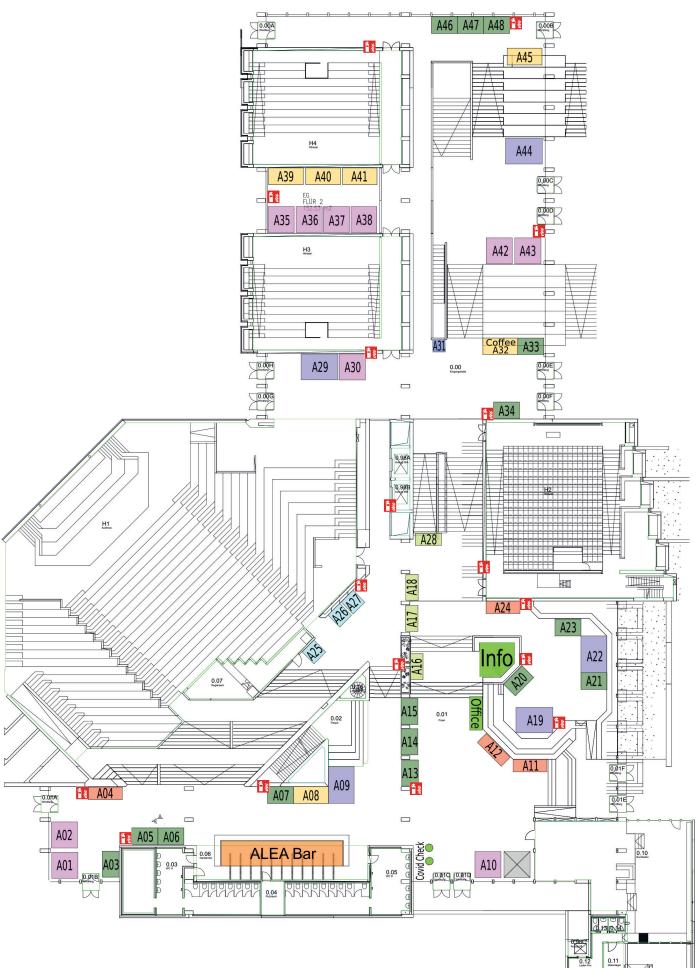

<b>Leybold GmbH</b> Bonner Straße 498, 50968 Köln <i>Vakuumpumpen</i>	H6	A50
<b>LIOP-TEC GmbH</b> Industriestraße 4, 42477 Radevormwald <i>Optomechanik</i>	Tent Physics	P13
<b>Ludwig-Maximilians-Universität München (Prof. Alexander Högele)</b> Geschwister-Scholl-Platz 1, 80539 München <i>Qlibri Projekt LMU München</i>	Audimax Foyer	A03
<b>MaTeck – Material-Technologie &amp; Kristalle GmbH</b> Im Langenbroich 20, 52428 Jülich <i>Einkristalle, Sputtertargets, Substrate, hochreine Materialien, Isotope, Halbleiter-</i> <i>kristalle</i>	H6	A57
<b>Menlo Systems GmbH</b> Bunsenstraße 5, 82152 Martinsried Femtosecond Fiber Lasers, THz Time Domaine Systems, Ultrastable Lasers, Optical Frequency Combs	Audimax Foyer	A11
<b>ML4Q Office Cologne Matter and Light for Quantum Computing</b> Pohligstraße 3, 50969 Köln Cluster of Excellence "Matter and Light for Quantum Computing" representing the Quantum Alliance, the consortium of German clusters and research centers working in quantum science and technology	Tent Physics	P10
<b>Moorfield Nanotechnology LTD Unit 1</b> Parkgate Industrial Estate, Knutsford, Cheshire, WA16 8XJ, UNITED KINGDOM Deposition systems for magnetron sputtering, thermal and e-beam evaporation, as well as etching tools. Benchtop, free-standing and glovebox models. Field-prov MiniLab, nanoPVD and nanoETCH ranges.	Economy Bldg. ven	E17
<b>Nanosurf GmbH</b> Rheinstraße 5, 63225 Langen Rasterkraftmikroskope, Atomic Force Microscope, AFM, SPM	Audimax Foyer	A07+A08
<b>Nikalyte Ltd</b> 77 Heyford Park, OX25 5HD Upper Heyford, Bicester, UNITED KINGDOM <i>Nikalyte is a supplier of nanoparticle deposition equipment</i>	Economy Bldg.	E19
<b>Onnes Technologies B.V.</b> Kenauweg 21, 2331 BA Leiden; THE NETHERLANDS ONNES TECHNOLOGIES introduces ARKTIKA, a new cryogenic nanopositioner. Our WALKING TECHNOLOGY distinguishes itself from stick-slip in superior characteristics. Visit us at Regensburg22, stand E14.	Economy Bldg.	E14
<b>Orange Quantum Systems</b> Lorentzweg 1, 2628 CJ Delft, THE NETHERLANDS Orange QS provides solutions that enable our partners to create the best quantumchips	Audimax Foyer	A41
<b>Owis GmbH Feinmechanische und optische Systemtechnik</b> Im Gaisgraben 7, 79219 Staufen i. Br. <i>Strahlführungs- und Positioniersysteme</i>	Tent Physics	P16

<b>Oxford Instruments GmbH</b> Borsigstraße 15 a, 65205 Wiesbaden Oxford Instruments produces leading-edge analytical solutions including: Raman imaging systems from WITec, atomic force microscopes from Asylum Research, and cryogenic systems for low temperature environments from NanoScience.	Audimax Foyer	A30
<b>Oxford University Press Academic Division</b> Great Clarendon Street, Oxford OX2 6DP, UNITED KINGDOM <i>Books, Catalogues</i>	Economy Bldg.	E09
Park Systems Europe GmbH Schildkrötstraße 15, 68199 Mannheim Atomic Force Microscopy	Audimax Foyer	A13
<b>Pfeiffer Vacuum GmbH</b> Berliner Straße 43, 35614 Asslar Vakuumpumpen, Messgeräte, Turbopumpen, Lecksucher	Audimax Foyer	A33
<b>Picovac</b> Ziegelhüttenweg 30a, 65232 Taunusstein Thin Film Deposition Systems, Instruments for In-situ/Operando Research, Nanoparticle Deposition. Representing Korvus Technology, Leiden Probe Micros- copy, Moorfield Nanotechnology, Nikalyte	Economy Bldg.	E20
<b>PINK GmbH Vakuumtechnik</b> Gyula-Horn-Straße 20, 97877 Wertheim Vakuum- u. UHV-Kammern, Beschleunigerkomponenten, Vakuumtechnische Anlagen u. Systeme, Manipulatoren	Economy Bldg.	E16
<b>PREVAC sp. z o.o.</b> Raciborska Str. 61, 44362 Rogów, POLEN uhv, xps, ups, arpes, deposition, sputtering, mbe, pld, research, science, customized solutions.	Audimax Foyer	A26+A27
<b>Qioptiq Photonics GmbH &amp; Co. KG</b> Hans-Riedl-Straße 9, 85622 Feldkirchen (München) Präzisionsoptik und Mechanik, Faseroptik, Aufbausysteme, Laser	Audimax Foyer	A35
<b>Qnami AG</b> Hofackerstrasse 40B, 4132 Muttenz, SWITZERLAND <i>Quantum Sensor</i>	Economy Bldg.	E15
Quantum Design GmbH Im Tiefen See 58, 64293 Darmstadt Kryostate, Optische Kryostate, Kryogene Probe-Stations, Magnetsysteme für die Materialcharakterisierung, Magnetometer, Heliumverflüssiger, Temperatur Sensorer & Controller, Elektrische Messtechnik, CCD-, ICCD-, EMCCD-Detektoren, Spektrogra- phen	Audimax Foyer	A44
<b>Quantum Machines</b> Fruebjergvej 3, 2100 Copenhagen, DENMARK <i>QDevil presents its product lineup for quantum computing applications. Cryogenic</i> <i>sample holders for Spin and Superconductivity qubit chips. Cryogenic filters,</i> <i>Control electronics and hardware.</i>	Audimax Foyer	A21
<b>Raith GmbH</b> Konrad-Adenauer-Allee 8, 44263 Dortmund Raith is a leading precision technology manufacturer for nanofabrication, electron beam lithography, FIB SEM nanofabrication, nanoengineering, process control and reverse engineering applications.		A10

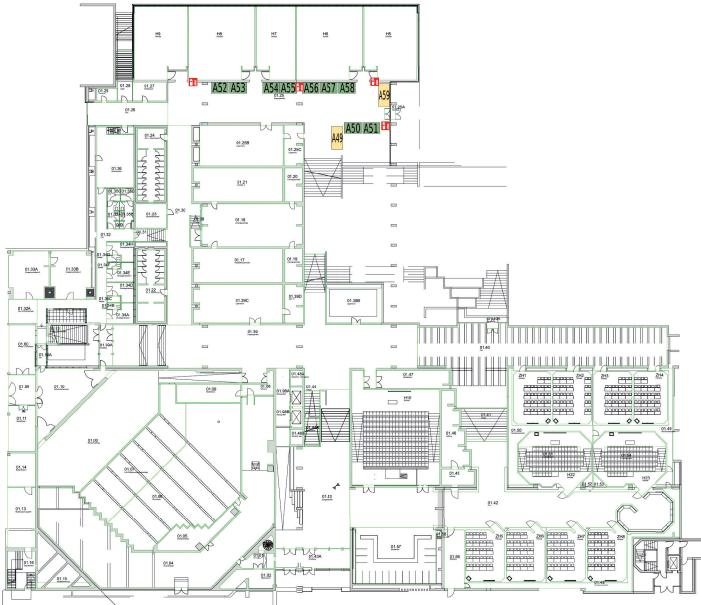

<b>SAES Getters S.p.A.</b> Viale Italia, 77, 20020 Lainate (Milan), ITALY UHV NEG-Pumpen, Alkalimetall-Dispenser, Hochvakuumpumpen, Getter	Tent Physics	P07
<b>Schaefer Technologie GmbH</b> Robert-Bosch-Straße 31, 63225 Langen Rastersondenmikroskopie, optische 3D-Mikroskopie, Dünnschicht-Technologie, Nano-Analytik	H6	A58+A59
<b>Scienta Omicron GmbH</b> Limburger Straße 75, 65232 Taunusstein Systems and Instruments for Surface Science and Thin Film Technology	Economy Bldg.	E12
<b>SEKELS GmbH</b> Dieselstraße 6, 61239 Ober-Mörlen Magnetische Abschirmungen, Magnetsysteme, weichmagnetische Halbzeuge, induktive Bauelemente	H6	A56
<b>Sensific GmbH</b> Paukengasse 14, 89077 UIm Camera-based high-speed analysis and control systems with integrated real-time image processing for applications in droplet microfluidics, particle and cell analys		A48
<b>SENTECH Instruments GmbH</b> Schwarzschildstraße 2, 12489 Berlin Plasma Prozess technologie und Ellipsometer	Audimax Foyer	A01
SI Scientific Instruments GmbH Römerstraße 67, 82205 Gilching Spektrometer, Lock-In Verstärker	Tent Physics	P14
<b>SmarAct GmbH</b> Schütte-Lanz-Straße 9, 26135 Oldenburg <i>SmarAct Kleingeräte</i>	Tent Physics	P17
<b>SPECS Surface Nano Analysis GmbH</b> Voltastraße 5, 13355 Berlin Photoelektronenspektroskopie, Rastersondenmikroskopie, winkelaufgelöste Photoemission, Elektronenmikroskopie	Audimax Foyer	A19
<b>Springer-Verlag GmbH</b> Tiergartenstraße 17, 69121 Heidelberg Wissenschaftliche Bücher und Zeitschriften	Audimax Foyer	A45
Staib Instrumente GmbH Hagenaustraße 22, 85416 Langenbach In situ growth monitoring for MBE, RHEED, TorrRHEEDTM, AUGERProbeTM, AES, XPS, UPS, REELS, electron and ion sources, complete surface analysis systems, STAIB MultitecTM	Tent Physics	P15
<b>Surface Concept GmbH</b> Am Sägewerk 23 a, 55124 Mainz Scientific cameras, ToF momentum microscopes, imaging & time-resolved MCP based detection, analoge pulse processing	H6	A51

<b>Swabian Instruments GmbH</b> Stammheimer Straße 41, 70435 Stuttgart <i>TCSPC, Time Taggers, Pulse Streamer</i>	Audimax Foyer	A42
<b>Technische Informationsbibliothek Hannover (TIB)</b> Welfengarten 1B, 30167 Hannover Wissenschaftliche Fachliteratur	Tent Physics	P03
<b>Tecuum AG Applied Vacuum Technology</b> Gertrudstrasse 1, 8400 Winterthur, SWITZERLAND VCM600 is the standard Vacuum Thermal Evaporator. "Plug and Play", compact, desktop/bench top, Rack type and Glove Box systems. No running cables mesh. No special operating system. No PLC bugs. Robust, fast, versatile systems.	Tent Physics	P04
<b>THORLABS GmbH</b> Münchner Weg 1, 85232 Bergkirchen Optische und optomechanische Komponenten, Test & Measurement Systeme, optische Tische und Vibrationskontrolle, Nanopositionierungen, Lichtquellen sowie Imaging, Mikroskopie und Life Science Komponenten	Audimax Foyer	A16+A25
<b>TOPAG Lasertechnik GmbH</b> Nieder-Ramstädter Straße 247, 64285 Darmstadt <i>Laser und Optische Messtechnik</i>	H6	A54
<b>TOPTICA Photonics AG</b> Lochhamer Schlag 19, 82166 Gräfelfing / München Laser Rack Systems, Tunable Diode Lasers, Laser Frequency Stabilization, Femto Fiber Lasers, Wavelength Meters	Audimax Foyer	A37
<b>TransMIT GmbH</b> Kerkrader Straße 3, 35394 Gießen TransMIT GmbH - Center for Adaptive Cryotechnology and Sensors	Economy Bldg.	E08
<b>Ulrich Neumann</b> Tschidererstraße 3, 86609 Donauwörth Ausstellung des Buches "Das wunderbare Universum verstehen – Physik 2.0"	Tent Physics	P12
<b>Vaqtec-scientific Mario Melzer</b> Thulestraße 18B, 13189 Berlin Komponenten der UHV- und HV-Technik: u.a. Stromdurchführungen, Schaugläser, Schichtdicken-Messgeräte	Economy Bldg.	E07
<b>Wiley-VCH GmbH</b> Boschstraße 12, 69469 Weinheim Fachverlag, Fachbücher, Fachzeitschriften, Online Produkte	Audimax Foyer	A04
<b>Zurich Instruments AG Marketing and Sales</b> Technoparkstrasse 1, 8005 Zurich, Schweiz Lock-in Amplifiers, Test & Measurement	Audimax Foyer	A22
